## Room Setup, Technical Equipment, and WIFI

- All **rooms**, except for MA 005 and MA 041 are seminar rooms with tables. MA 005 and MA 041 are lecture halls.
- Each room is equipped with a **video projector** including VGA and HDMI connections.
- A **sound system** with microphones is only available in the large rooms MA 005, MA 041 and MA 141 (two microphones per room)
- **Please bring your own laptops and adapters** (for connecting the laptop with the projector and for electric power plugs, if required). **These are not available at the venue**
- Remote participation may be possible on a self-organised way (by the organisers of the meetings). This is depending on the WIFI bandwidth available at the Technical University Berlin. We therefore don't recommend offering remote participation.
- **WIFI** is provided for each participant. Access codes are available at the registration desk and are valid for two days (19-20 March 2018). EDUROAM is available too.

## Coffee breaks/Lunch

- There will be a central coffee break area in the first floor where we offer two coffee breaks per day, one in the morning, one in the afternoon. Please wear the badge provided at the registration for approaching the coffee station.
- **Coffee breaks** are scheduled for **11:00-11:30** in the morning and for **15:30-16:00** in the afternoon
- For lunch please use one of the several restaurants close to the Technical University (Knesebeckstrasse) or the University Canteen (Mensa, Hardenbergstr. 24). In addition, there are several cafeterias very close including in the institute of mathematics.
- Exceptions are the two events that have explicitly ordered lunch (Funders/Council Meeting on Tuesday, Hackathon both days). **Lunch** is available between **13:00 and 14:00**. We will be serving sandwiches and a soup.

**Please notice that eating food in the seminar rooms or in the lecture hall is not allowed!**
