

	RDA Dynamic Data Citation Workshop – 1st & 2nd July British Library, Euston Road, London	Lead	Outcomes
	<p>Aims:</p> <ul style="list-style-type: none"> To present RDA WG conceptual model addressing citation of dynamic data to a group of data curation practitioners To assess goodness of fit of the model for the requirements of users, curators, publishers, authors To extend and/or improve the model to meet the widest range of data users To plan test implementations of the citation model with various dynamic data curated by the group To provide input to WG reporting at RDA P4 <p>Format: 2 Day workshop</p> <p>Day1:</p> <ul style="list-style-type: none"> Explore the model and user requirements from within the group Gap analysis of model with current requirements <p>Day2:</p> <ul style="list-style-type: none"> Extensions / improvements to the model to meet user needs Plan for test implementations RDA plenary 4 		
12:00	Lunch and Arrival		
13:00	Intro to RDA WG and plan for workshop		
13:15	WG dynamic citation proposal		
13:45	Facilitated discussion – Pros and Cons of model from different views. Does it meet :-		
	User needs for access to original data		
	Data depositor's need for recognition		
	Publisher needs for short references		
	Repository need for granularity in PID		Lists of pros and cons from each view point
15:00	Coffee and assimilation from discussion		
15:20	Gap analysis - Presentation of Use cases – current implementations and gaps with model/needs		
	Case study UKBMS & discussion of model fit / gaps		
	Case study Argo & discussion of model fit / gaps		
	Case study NRFA & discussion of model fit / gaps		
	Case study UKDA & discussion of model fit / gaps		Post-it notes describing gaps between specific community needs and particular model areas
17:00	Summary of model fit to communities & case studies		

17:30	Close day 1		
19:00	Food and drink tba		
9:00	Coffee and intro to day 2		
9:10	Facilitated session – How to address gaps		
	Are there general improvements to be made?		
	Are there specific community needs?		
	Are there improvements for PID/DOI formats required?		
	Discussion of possible solutions to address gaps or improve model (across or within communities)		
	Collate solutions under wider topics (e.g. PID syntax, versioning standards) and refine them as work packages		List of possible solutions / work packages under generic topics for voting
10:20	Coffee available		
10:30	Prioritising which solutions / work packages to take forward		
	Vote on priorities for solutions		
	Discuss implementation of chosen solutions		
	Assign names against solutions / work packages		
			List of solutions / work package to be take forward
11:30	Work plan for implementing dynamic data citation		
	Discuss scheduling and approach to implementation of work packages		
	Include expected outputs for RDA P4 in September		Work plan with identified test implementations and milestones
12:00	Summary of plan and next steps		
12:30	Close and Lunch
