What can the RDA do for you?

RDA builds the social and technical bridges that enable open sharing of data

- Recommendations on data sharing
- Funding for activities
- Working groups / interest groups / plenaries
- Contribute to infrastructure development
- Share experiences
- Gain expertise in data science

3 examples of RDA output

1. 23 Things For Research Data Management
   - The Challenge: Building capacity within the library community around research data management practices by addressing gaps and encouraging intersections between practices.
   - What is the solution?: 23 Things for Research Data Management provides an overview of practical tips, online resources, and the RDA and RDA Europe networks.

2. Metadata Standards Directory
   - The Challenge: Enabling discovery of metadata standards for documenting research data across disciplines and addressing issues related to curation, ease of maintenance, and sustainability.
   - What is the solution?: The Metadata Standards Directory is a repository that presents discoverable metadata standards from diverse communities.

3. Repository Audit and Certification Catalogs
   - The Challenge: Providing a comprehensive overview of the landscape of existing metadata standards.
   - What is the solution?: The RDA Repository Audit and Certification Catalogs provide an overview of metadata standards, with links to online resources.

This poster has been conducted within the project RDA Europe 4.0. This project has received funding from the European Union’s Horizon 2020 (H2020) research and innovation programme under the Grant Agreement no 77738.
